To Whom It May Concern:

Our township has utilized Great Lakes Telecom as our primary telecommunications system provider, in excess of 20 years.

We consider them to be "User Friendly." When calling for service, our first contact is a pleasant, helpful office staff. We frequently request changes in our phone/data assignments and requirements. Despite this, they have proven to be patient time after time, consistently providing assistance and support.

Problem solving is one of their strongest assets. Their eagerness to resolve issues with pride is reflected in the results of their work.

They analyzed our many phone invoices, and engaged alternate providers, saving us thousands of dollars annually.

Recently, they upgraded our entire phone system. While working in unison with our daily building operations, it was a coordinated effort which resulted in minimal disruption. We were very pleased with the results.

In our opinion, choosing Great Lakes Telecom as your telecommunications service provider would be a great choice!

Sincerely,

Jeri L. Sizemore
